### THE SHAPOORJI PALLONJI GROUP: 150 YEARS YOUNGER

A century and a half ago, a small Indian company, Littlewood Pallonji & Company was commissioned to build a water reservoir for Mumbai (then Bombay). Over time, this company has grown to become the Shapoorji Pallonji Group of Companies (SP Group), evolving into a large business conglomerate. Today, with over 30,000 employees and presence in more than 20 sectors, Shapoorji Pallonji has evolved and grown exponentially into multiple business segments with a progressive outlook and a thoroughly professional approach.

The Group has a strong presence across India and internationally including the Middle East and Africa. With a rich legacy of 150 years and a consistently superior track record, Shapoorji Pallonji remains committed towards excellence in each of its operations.

Its business interests cover construction (including residential, commercial, industrial and infrastructure), real estate, infrastructure (comprising coal mining, power, ports and roads), solar energy, biofuels and agriculture, consumer products, electro-mechanical and MEP services, facades and interiors, engineering, textiles, business automation and shipping logistics. The flagship construction division is the name behind some of the most iconic buildings and structures that dot the architectural and industrial landscape of India and internationally. The creme de la creme of manufacturing, services and other industries have reposed their faith in Shapoorji Pallonji to deliver excellent quality consistently and unfailingly.

Shapoorji Pallonji has also taken a major step in the strategic area of Oil and Gas exploration for the country and has successfully delivered the first Floating Production, Storage and Offloading Vessel ("FPSO") for D1 field of ONGC in a record time of 16 months with its partner.

The Group also believes in Creating Sustainable Responsible business (its definition of CSR) and works on multiple projects for community development and environment preservation. Through the Shapoorji Pallonji Foundation, the SP Group has a vision to plant one million trees, create Educational Bio-diversity parks, reduce carbon footprint, improve education levels of children and improve health and sanitation. It runs multiple projects in India and internationally to support the above goals.

Shapoorji Pallonji is a dynamic enterprise, which draws vital support from its various individual entities. Each of the Group entities are a rightful leader in their respective fields giving the SP Group its tremendous strength and capability.
